

Add Picture to PDF

User Guide

Adds a picture to given page number or all pages on the same position of specified PDF document depending on the pageNumber

Properties pane of activity

The screenshot shows the 'Properties' pane for the 'AddPicturetoPDF.AddPicture' activity. The pane is organized into several expandable sections: 'Common', 'Image', 'Input', 'Misc', and 'Output'. The 'Common' section shows 'DisplayName' as 'Add picture'. The 'Image' section shows 'Height' (45), 'OffsetX' (12), 'OffsetY' (744), and 'Width' (60). The 'Input' section shows 'PageNumber' (1), 'PdfPath' ('Invoice.pdf'), and 'PicturePath' ('sign.png'). The 'Misc' section shows 'Private' (unchecked). The 'Output' section shows 'OutputPath' ('123.pdf'). Each input field has a browse button (three dots) to its right.
