

input: the Result of a Regex - IEnumerable(of Match) it is s output of matches activity

Matches: DateTime Strings like: 25.07.2020...in dd/MM/yyyy format

expected: the latest Date as String

before doing this

also can we check if all the elements of the list or array are unique ?

list is basically set of dates

{ [05.06.2019], [18.09.2020], [26.04.2021], [31.12.2021] }
